

## **SOLVATTEN REPORT ON A WOMEN GROUP THAT HAS BENEFITED BY SOLVATTEN**

IAS-K has been able to benefit a big number of people with solvatten containers used to heat water using the heat direct from the sun in many parts of Tharaka North and Tharaka South sub counties.

Among these beneficiaries are self-help groups, youth groups, women groups among others.

Below is one of the women group that that benefited from the last container we received.

Name: Tumaini Women Welfare group

Location: Kamarandi

Size: 51

The above named above women group has got different objectives and among them are;

- i. Supports education in the community through contributing school fees for needy children and doing follow ups on their well-being even after school.
- ii. Promotion of welfare e.g. visiting the sick, taking care of the elderly in the community, taking part in burring of the dead among many others.
- iii. They also engage in some self-improvement activities like table banking which has enabled every member of the group to develop differently.
- iv. Ensuring that every member has a kitchen garden in their homesteads so as to reduce the cost of living, eat a balanced diet always and also utilize every drop of water available.

Below is the photo of the group named above;
